

4 DRUM STEEL BUND

COMPLETE WITH REMOVABLE GRID

Safe storage solution for acids and alkalis

Premium UK made steel

These robust steel spill pallets are suitable for the storage of 4 x 205 litre drums. Ideal for harsh working environments or where compatibility with plastic is an issue, they are manufactured from 2.5mm steel plate. A 3mm heavy duty version is also available; please call for details.

This 4 Drum Steel Spill Pallet has a fully welded sump, removable galvanised grid and fork hoops for easy transportation. It is available in different colour options, with a high quality anti-corrosion solvent based 2 pack polyurethane coating.

- British design & manufacture
- Suitable for industrial, agricultural and commercial use
- High impact strength
- Bund contains minimum 110% volume of the stored liquid
- Hot dip galvanised spill grids
- Forklift transport
- 5 year warranty against manufacturing defects

Bund dimensions (mm)

Height	Length	Width	Capacity	Grid
260	1255	1255	280 Litres	Galvanised (removable)
